

A close-up photograph of a small green seedling with two leaves growing out of a crack in dry, cracked earth. The seedling is the central focus, with its green leaves contrasting against the grey, textured soil. The background is blurred, showing more of the cracked earth.

A low-angle, upward-looking shot of a large, mature tree. The trunk is thick and textured, dominating the left side of the frame. The branches spread out towards the top right, filled with vibrant green leaves. Bright sunlight filters through the canopy, creating a warm, golden glow and lens flare effects. The overall atmosphere is peaceful and natural.
